1. Title of Project:

*

Teaching on the fly: Focused interventions to develop residents as teachers in a primary care model

Principal Investigator:

LCDR John Koch Other Investigators: LT Gregory Zhang, ENS Rachel Crispell

We invite you to take part in a research study, which seeks to improve the ambulatory teaching experience. Taking part in this study is voluntary. No personal identifying information will be collected.

Section 1. Purpose of the Research

You are being asked to participate in this study as a resident who teaches medical students. The purpose of this research is to evaluate the effect of a teaching workshop on the ambulatory clinic teaching experience for residents and medical students.

Section 2. Procedures

You will be asked to complete a pre-intervention survey. You will then be asked to participate in a 2.5 hour workshop on a Thursday afternoon about ambulatory teaching. You will then be asked to complete a post-intervention survey.

Section 3. Time Duration of the Procedures and Study

If you agree to take part in this study, your involvement is anticipated to last 10 minutes for each survey and 2.5 hours for the workshop.

Section 4. Discomforts and Risks

Minimal risks are anticipated. Emotional discomfort is not anticipated, but in rare instances may be possible.

Section 5. Potential Benefits

For residents: improved confidence in teaching, improved clinic efficiency when working with medical students, improved teaching experience.

Section 6. Statement of Confidentiality

All information collected will be anonymous. No personally identifiable information will be collected. Anonymous data will be stored in a password-protected spreadsheet.

Section 7. Costs for Participation

There are no anticipated costs for participation.

Section 8. Compensation for Participation

You will not receive any reimbursement for participation.
